Education

2017-05 -

2020-08

Bachelor of Science: Computer Science

College of Applied Science - Kiliyanad,kerala

No Degree: Python-web Development Expert

Luminar Technolab

I completed six months of industrial Python training. The institution offers project-based IT training in Python as well as hands-on experience with current industry trends. Django framework has been used to create web applications. I have completed two projects from the institution. The National Council for Technology and Training (NACTET) issued the certificate with an A+ grade.

Projects

Yardstick consulting and hospitality

This project is a consulting and hospitality web application using the Django framework. It consists of two modules. User and admin are the modules. The user module can view the services,clients,client gallery, and work of experience. The user can also send their query through a form. The admin module can change client details and client galleries. The admin can view the queries sent by the user through mail.

Programming languages: Python, Javascript

Frameworks: Django

Databases: SQLite

web technologies: HTML, CSS, data tables, and jQuery

Tools: Git
